

Protect the Future of Cape St Francis

We urge every resident and stakeholder to add your voice to this objection. Cape St Francis' unique character and natural setting are under direct threat from inappropriate town planning principals in the latest Kouga Municipal Draft Spatial Development Framework (SDF). The latest iteration of the SDF includes a proposed link road between CSF and SFB as well as additional "mixed use" zonings. By submitting your own objection, you help ensure our village remains true to its ethos — *keep it green, keep it clean, keep it small*. Please take a moment to stand with us and protect the future of Cape St Francis.
